Choose safety and convenience with one of these great packages.

LiftMaster® Commercial Door Operator specified for your door includes:
One Set of Safety Sensors, 3-Button Station with Maintenance Alert System, Open Mid-Stop, Timer-to-Close and Internal Radio Receiver.

**FH1 Package**

- **CPSIII**  Additional set of Photo Eye Safety Sensors  Increase the level of safety of your system with a second set of sensors to monitor for vehicles and high apparatus equipment.
- **RGL24LY**  Red/Green Light  Dramatically reduces the chance of damage to the door and engine, this light will change from flashing Red to solid Green when the door reaches the full open position, indicating when it is clear to exit.
- **TLS1CARD**  Timer/Light/Status Card  Synchronizes the Red/Green Light operation to the LiftMaster Commercial Operator for consistent, reliable operation.
- **02-401M**  Open Only Mushroom Button  Positioned where you want control of the system, this custom control panel sends the door to the full open position, and automatically enables the Timer-to-close feature – perfect for time sensitive situations.

**FH2 Package** (Includes everything in FH1 Package listed above plus...)

- **850LM**  Enhanced Universal Receiver  With 2 times the distance of standard receivers, this multi-frequency radio virtually eliminates the effect of interference.
- **813LM**  3-Button Remote Control  This extreme range remote work with the 850LM Receiver to give you even greater distance when leaving on a call. Programmable for Open/Close/Stop Operation

LiftMaster offers a wide range of additional accessories to enhance your Commercial Door Operator such as a Wireless Keyless Entry which can open doors conveniently and Safety Edges that detect obstructions. Ask your LiftMaster Dealer for more details about our complementary line of accessories.

LiftMaster is proud to be a national sponsor of the Scott Firefighter Combat Challenge.
WE’VE MET WITH FIREFIGHTERS TO DISCUSS THEIR ACCESS NEEDS AND THE CHALLENGES THEY FACE.

Costly repairs and re-certifications after driving through doors. The potential for theft and vandalism while you’re away from the house. You’ve told us your biggest issues – and we’ve delivered with seamless solutions. Like our Red/Green Traffic Light that lets you know when the door is fully open…no more guessing when it’s safe to go. And our Timer-To-Close feature which closes the door automatically soon after you leave, keeping the house secure once you’re away. Add legendary LiftMaster durability, and you have the perfect solution to keep your firehouse running smoothly 24/7.

Whether you need trolley or hoist operators, LiftMaster offers industrial-duty versions of both

Each come standard with these advanced features:

- **Timer-To-Close** lets you set the door to close automatically, as soon as you clear it. This eliminates the potential for theft and damage, keeping your station secure while you’re away.

- **Built in 3-Channel 315MHz Radio Receiver** lets you remotely control your commercial door operator how you choose by adding remote controls or wireless keyless entry systems. Program up to 23 Security+ remote controls or unlimited number of dip switch remotes with Open/Close/Stop control.

- **Maintenance Alert System** reminds you when it is time to contact your LiftMaster Dealer for routine maintenance. This system can be set to alert based on calendar date or after a selectable number of operator cycles.

Red/Green Traffic Light lets you know when the door is fully open and it’s safe to exit, virtually eliminating door contact and expensive equipment damage.

Open Only Push Button can be positioned anywhere in the apparatus bay, such as the entrance from the bunkroom, allowing you to react quickly when you get the call.

Safety Sensors will stop the door from closing if an obstruction is detected protecting personnel, vehicles, aerial ladders and other high apparatus obstructions.

3-Button Station with Maintenance Alert System lets you open, close and stop the door quickly. You know when it’s time for routine maintenance.

Our LiftMaster door enhancements are providing a safer workplace for our firefighters, have eliminated costly door repairs and are allowing our units to respond to emergencies faster.

- Chief Shawn Oke

After two major door repairs, The Albemarle Fire Department of Albemarle, North Carolina recently had the opportunity to make much needed safety upgrades to their main firehouse door systems. Chief Shawn Oke was thrilled with the results.
Firehouse-focused accessories enhance safety and speed.
